

Assembly bends, shrinkable, L=1000mm

Belmaflex assembly bends, shrinkable are made of PE 100 and find their application on the existing pipe lines. On customer request, products may be supplied with loose mastic bands and shrinkable collars. Assembly bends can be supplied in two wall thickness versions; standard or extra thickness which is an advantage in case of welding.

Assembly Bends 45°, product drawing

Assembly Bends 45°, L1 = 1000 mm, measurement parameters

Item no - standard wall thickness	Item no - extra wall thickness	D1*	Standard version	Extra wall thickness version	No of segments	L1
			wall thckn. mm	wall thckn. mm		mm
7707510004512		75	3		0	1000

7731510004512	7731510004515	315	4,9	7,7	0	1000

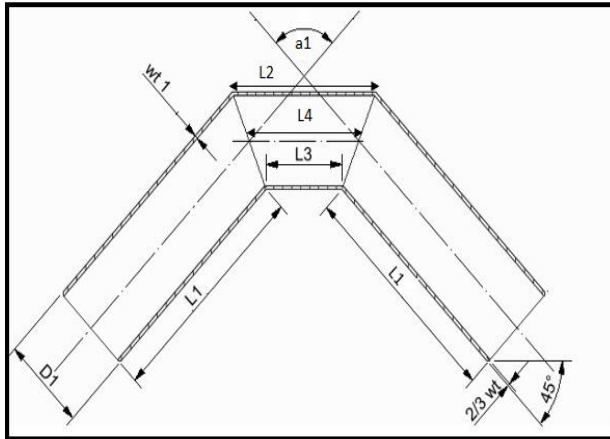

*D1 - outer PE casing diameter on which assembly bend will be shrinked

Assembly bends in different diameters, with different angles, lengths and number of segments can be supplied on special request of the customer

In case of a special request for a not standard assembly bends in angles $\leq 45^\circ$ please send us the product drawing or fill up the information in the table in the CUSTOMER NOT STANDARD PRODUCT REQUEST FORM on page no 3

Assembly bends, shrinkable, L=1000mm

Assembly Bends 90°, product drawing

Assembly Bends 90°, L1 = 1000 mm, measurement parameters

Item no - standard wall thickness	Item no - extra wall thickness	D1*	Standard version	extra wall thickness version	No of segm.	L1	L2	L3
			wall thckn. mm	wall thckn. mm		mm	mm	mm
